Position: Software Engineer

PROFESSIONAL SUMMARY

Software Engineer with over 6 years of experience specializing in front-end development for enterprise-level web and mobile applications. Skilled in React.js, Next.js, React Native, and LitElement, with strong expertise in accessibility (WCAG), performance optimization, and maintainable architecture. Experienced in collaborating with global teams to deliver scalable, user-centric, and high-performance digital products across multiple industries.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS

Frameworks & Libraries: React.js, Next.js, React Native, LitElement

Styling: Tailwind CSS, Styled Components, Sass

Testing: Jest, Enzyme, React Testing Library

Tools: Git, Redux, REST APIs

Practices: Accessibility (WCAG), Agile/Scrum, Unit Testing, CI/CD

PROFESSIONAL EXPERIENCE

Senior Software Engineer – Photon | August 2021 – Present

- Developed and maintained enterprise-grade front-end applications using React.js, Next.js, React Native, and LitElement.
- Built modular and reusable UI components ensuring maintainability, scalability, and accessibility compliance.
- Improved performance, load time, and overall user experience across multiple platforms.
- Implemented unit and integration testing using Jest, Enzyme, and React Testing Library.
- Collaborated with global cross-functional teams in an Agile environment.
- Contributed to front-end architecture improvements and CI/CD automation.

Software Engineer – Astra International | August 2019 – August 2021

- Developed and maintained the SEVA automotive e-commerce platform using JSP, jQuery, and Sass.
- Collaborated with backend and UI/UX teams to deliver responsive, accessible user interfaces.
- Enhanced website performance and ensured cross-browser compatibility.
- Supported UI/UX improvements to align with evolving business requirements.

PROJECT EXPERIENCE

Alaska Airlines

- Maintained and enhanced the main website using Next.js, focusing on performance and accessibility.
- Built reusable UI components with LitElement for the company's design system.
- Improved modularity, performance, and cross-browser reliability.

Wynn Las Vegas

- Developed front-end modules for the hospitality platform using React Native.
- Implemented booking, payment, and digital key features with focus on performance and reliability.

Pret A Manger

- Built internal back-office tools using Next.js and Tailwind CSS to improve operational efficiency.

Eyecare Patient Portal

- Developed a Next.js web app with ADA-compliant accessibility for patient scheduling.

Baker & Taylor

- Created a React Native mobile app for an online library with offline capability and intuitive navigation.

JMACS Intellitech

- Developed a Jail Management System web app using React.js and Redux-Saga, focusing on dashboard visualization and data automation.

SEVA (Astra International)

- Built the front-end UI for an automotive e-commerce platform using JSP, jQuery, and Sass.
- Improved component performance and interface consistency.

EDUCATION

Sebelas Maret University

Bachelor of Science in Physics | 2013 – 2018

XSIS Academy

Java Developer Bootcamp | 2019
